

# The Equipment Sharing Database

Over 16,000 people have accessed the Cambridge Equipment Database

## Have you?

Are you a student or member of staff with a project proposal?  
Are you seeking funding, further expertise, or training on equipment?  
Where do you go if you require replacement equipment at short notice?

## What does the database do?

Helps researchers find equipment and facilities available for sharing  
Encourages internal, national, and international collaboration  
Increases the exposure of facilities that can be used to recover equipment costs  
Highlights a commitment to share equipment - beneficial when writing grant applications  
Helps toward waste reduction, reduced consumption, recycling, and carbon profiling

## How can I learn more?
